PROFESSIONAL PROFILE

Technology Professional with 17 years of corporate experience. Absolute specialist in process automation, generation and validation of ANS standards (XML) with 100% compliance. Today I apply my strong analytical expertise (Power BI) combined with advanced Web development (Next.js, React) to architect high-performance solutions with direct impact.

PROFESSIONAL EXPERIENCE

Data & AI Analyst (Project)

DataGuvi May 2026 – Jun 2026

Transformation of raw data into strategic decisions. Mastery in ETL (Power Query), relational modeling (Star Schema) and advanced DAX. Creation of interactive dashboards for real-time tracking of business KPIs.

Billing Assistant (IT & Integration)

Unimed Bauru Hospital Mar 2009 – Apr 2026 (17 years)

Directly responsible for checking and generating ANS Standard XML files (2,500+ monthly records) without failures. Implementation and system integration at HEADQUARTERS, HUB and CDU units. Massive training and support of new technologies and processes to local teams, ensuring total platform adoption.

Administrative

Bauru City Hall 5 years

Critical management of municipal documentation, operating licenses emission processes, construction and occupancy permits.

Technical Support

Lan House 2 years

Hardware maintenance, network configuration, technical customer service and various administrative routines.

PROJECTS & PORTFOLIO

LinkedIn Jobs & Modern Systems

Full-stack development of SaaS systems, administrative panels and job aggregators using React 19, Next.js 15, Node.js and Tailwind CSS. Agile deployment via Vercel with CI/CD pipelines.

Source code and live applications available directly in my portfolio.
